

Theraplay Canada PROCEDURES FOR CERTIFICATION AS A THERAPLAY[®] PRACTITIONER

QUALIFICATIONS

Education and Professional Experience

Certified Theraplay[®] Practitioners

Practicum applicants must hold a master's level or higher degree and be a licensed clinical mental health professional qualified to provide psychotherapy to children and families. If you do not have a Masters, you can only become certified up to Foundational Practitioner. Graduate students may be admitted into the program and fully certified if their degree is awarded during the practicum.

We assume a solid background in:

- the principles of human development
- the ethical issues within their own discipline, including best practice; and
- professional experience working with children and families

In countries that do not license, applicants must demonstrate the equivalent qualifications through university transcripts and other documentation.

Responsibility and Liability

Welfare of Clients

The Theraplay Institute or Theraplay Canada does not accept legal responsibility for the welfare of the candidate's clients. Therefore, it is important that candidates for Theraplay Practitioner either have credentials that allow them to work independently or have a regular supervisor (other than the Theraplay Supervisor) who can be responsible for the welfare of their clients.

Informed Consent

Candidates must have fully informed permission from their regular supervisor and/or agency director before pursuing Theraplay certification. They must also have fully informed permission from the families with whom they work to videotape sessions and have them used for supervision. A copy of both consents should be submitted along with their registration for the practicum.

Insurance

Candidates must have their own malpractice insurance. A copy of their insurance confirmation should be submitted along with their registration for the practicum.

Ethics and Confidentiality

All supervisees must adhere to the ethical standards of their professional associations and to the confidentiality laws of the state, province or country where the treatment is provided.

The Theraplay Institute and Theraplay Canada maintains the strictest confidentiality in the treatment of supervisee's personal information, client case notes, supervision notes, and video. For more information, please contact admin@theraplaycanada.ca .

PROCEDURES FOR OBTAINING CERTIFICATION

TRAINING REQUIRED

Level One Training

Candidates must successfully complete the Level One course in Theraplay and the Marschak Interaction Method (MIM).

It is recommended that candidates begin their practicum as soon as possible after completing the Level One course and that they have at least three months' experience before taking the Level Two course to build upon and refine their developing skills.

Level Two Training

Upon achievement of your Foundation Certificate, candidates are invited to complete Level 2 training. This level must successfully be completed and attended to in person (live training). This workshop is part of the requirements to moving onto final Certification level.

REGISTRATION TO THE PRACTICUM

Supervision Options: Students may register for the practicum in the following ways:

Supervision by a Theraplay® Canada Supervisor

If the applicant intends to be supervised by a Theraplay Canada supervisor, the registration documents should be submitted along with the **practicum level** fee to Theraplay Canada, Bradford Ontario Canada, (see below for complete list of materials). Students may request a specific supervisor and Theraplay Canada will assign to that supervisor if available. If no specific supervisor is requested, Theraplay Canada will match the student to a supervisor based upon profession and other factors. Once a supervisor has been assigned, the student will meet with her/him to arrange for the first supervision of an MIM and first session.

If the student makes contact directly with a Certified Independent Theraplay supervisor, they must go through the same registration process stated above with the exception that the **registration fee will be paid to Theraplay Canada**. The remaining supervision fees are to be paid directly to your Independent Supervisor. NOTE: Some supervisor rates may vary.

Non-Acceptance into the Practicum

Any Theraplay Supervisor may reject a potential student for reasons including, but not limited to:

- Inadequate educational or professional qualifications
- Below average Theraplay skills for a beginner
- Unprofessional, disorganized or unstable patterns of behavior
- Use of punitive or critical methods in response to child behaviors

If rejected, the candidate may ask and pay for a second opinion from Theraplay Canada's Executive Director (or an appointed Advisory Committee of Theraplay Canada). The decision of the committee will be final.

PROGRESSION TOWARD CERTIFICATION

To recognize significant milestones of those in the practicum, our practicum is divided into three levels: Foundational Theraplay Practitioner, Intermediate Theraplay Practitioner and Certified Theraplay Practitioner. Please refer to *Practicum Details* for more information about the types of sessions required and supervision options.

PROCEDURES FOR OBTAINING CERTIFICATION

Only training and supervision provided by Certified Theraplay Trainers and Certified Theraplay Supervisors will be credited toward certification at any of the three levels.

Registration Requirements: Written Materials (electronic versions acceptable)

- Description of your professional experience, i.e. a curriculum vita or resume
- Signed copy of practicum attestation form
- Copy of your current professional license, or your college/university transcript in countries that do not license
- Written permission from your supervisor or agency director (if applicable)
- Written consent from the families whose sessions are being submitted for supervision
- Confirmation of professional malpractice insurance, if required in your country

These forms can be downloaded from www.theraplaycanada.ca under "Training". Completed forms can be e-mailed to admin@theraplaycanada.ca. Your documents will be reviewed and you will be contacted if additional information is required.

Levels of Certification

You MUST have a Masters to work towards Full certification. If you do not, you can only become certified up to Foundational Practitioner.

1. Foundational Theraplay Practitioner

Total # of Supervised Sessions = 8

Total # of Unsupervised Sessions = 32

- After the registration is completed, submit eight sessions of Theraplay treatment for supervision accompanied by the *Session Supervision Form*. These sessions should be of **two different clients** and should include at least one MIM and one parent feedback session or parent session. For the eighth session, submit the *Session Supervision Form*, completed by yourself and the *Theraplay Practitioner Foundational Certificate Registration: 8th Session Self-Description by Dimension Form* rating the **totality** of your work.
- Candidates must be rated an average of 3 or higher and also recommended by their supervisor. Please see *Evaluating Competency* for information about non-passing evaluations.
- Complete a total of 32 *unsupervised* Theraplay sessions and submit a log for your file.
- Students entering into practicum post October 2021 are to submit a Foundational level video to Theraplay Canada upon completion of your 8th Supervision session. This video will be reviewed by TC and then sent to TTI along with your Self-Description form and your Theraplay log for approval of the completion and passing of this level. You will then receive a Foundational Level Certificate from TTI which will then permit you to advance to the next level of Certification: Intermediate.

Foundational Certificate

Upon successful completion of the above mentioned requirements, the student will be issued a certificate acknowledging their status as a Foundational Theraplay Practitioner.

This certificate will be issued with explicit written limitations for practice based upon the recipient's professional qualifications. *Please refer to USE OF THE*

PROCEDURES FOR OBTAINING CERTIFICATION

THERAPLAY® SERVICE MARK for information about how to describe the use of Theraplay in your work. This certificate only acknowledges progress in the practicum and enables the student to be recognized as having more experience and skill development than one who has not received any supervision. ***This is not a substitute for full certification.***

2. Intermediate Theraplay Practitioner

Total additional # Supervised Sessions = 7 plus Intermediate review of Theraplay session video by TTI.

Total additional # of Unsupervised Sessions = 32

Written Materials

- Submit a brief (1 page) narrative that includes a personal history and a description of how you intend to use Theraplay in your work.

Training

- Successfully complete **a live** Level Two Theraplay/MIM training, including presenting a session at the training for one credit. This can be done at any time during the Intermediate level of the practicum.

Please Note: If completion of the Level Two training is not practical during the time you are working on Intermediate Theraplay Practitioner Certification, this requirement can be deferred upon recommendation of your supervisor. Candidates for deferment must be planning to finish the entire certification practicum. Candidates only planning to complete Intermediate Theraplay Practitioner Certification must complete a live Level Two training before a certificate will be issued.

Your Intermediate Supervision Sessions will include:

- Your submission of seven more sessions, including one MIM, one parent feedback session and 5 Theraplay sessions. Submit the *Session Supervision Form* with each video. The work of at least 4 different families (two additional families other than the two families presented at the Foundational level) should be presented before submitting a session for the Intermediate review.
- Complete an additional 32 Theraplay sessions and submit a log for your file. Total number of sessions completed = 64.

Intermediate review

- Submit a video for Intermediate review to Theraplay Canada (which will be passed on to be reviewed by a Supervisor of The Theraplay Institute), along with: the *Session Supervision Form*, completed by yourself and the *Intermediate Self-Description by Dimension Form* rating the **totality** of your work; log of sessions completed to date; recommendation of your supervisor. **Intermediate reviews should be of current work** (no more than three months old).

The candidate must receive an average rating of 3.5 and be recommended by their supervisor in order to submit a mid-term examination.

Pass the Intermediate review which is completed by a Theraplay Institute supervisor other than your regular supervisor. The Theraplay Institute supervisor may agree with your regular supervisor's pass/fail recommendation or override it. Please see *Evaluating Competency* for

PROCEDURES FOR OBTAINING CERTIFICATION

information about non-passing evaluations from your supervisor.

Intermediate Certificate

After passing the Intermediate review, the candidate will be issued a certificate acknowledging their status as Intermediate Theraplay Practitioner. This certificate will be issued with specific written limitations for practice based upon the recipient's professional qualifications. **This is the mid-way point of the practicum.** *Please refer to Use of the Theraplay Service mark for further explanation.*

3. Certified Theraplay Practitioner

Total additional # of Supervised Sessions = 7

Total additional # of Unsupervised Session=32

Sessions

- Submit 7 more sessions for supervision. The type of sessions to submit will be worked out in a plan that your supervisor develops for you at mid-term to focus on areas where most help is still needed
- Complete an additional 32 unsupervised Theraplay sessions and submit a log of them for your file. Total number of sessions completed =96.

Final

- Submit and pass the final exam evaluation (8th session*) which is done by a **Theraplay Institute supervisor** other than your regular supervisor. Final videos should be submitted with: the *Session Supervision Form*, completed by yourself; the *Final Self-Description by Dimension form and Supervisor's Rating Form* rating the totality of your work; log of sessions completed; recommendation of your supervisor. If the Theraplay Institute supervisor rates the candidate an average of 4 or better, the candidate passes. For ratings less than a 4, a specific plan for additional supervision will be developed with the student's regular supervisor and a new final exam submitted after defined goals have been met.

Please Note: Final exams must be of recent work done within three months of the time of submission. An exception will be considered for video up to six months old if accompanied by a letter of explanation from the candidate's supervisor. The Theraplay Institute reserves the right to ask for more recent work to be submitted.

Certification

Upon successful completion of all requirements, the candidate will be issued a certificate awarding them the status of Certified Theraplay Practitioner. Certification as a Theraplay Practitioner indicates that the candidate has fulfilled The Theraplay® Institute's requirements for training and has achieved a level of competence as a Theraplay Practitioner that will enable them to continue working independently.

It is highly recommended that the practitioner seek additional supervision before attempting to conduct Theraplay with a population very different from ones supervised during the practicum, e.g. traumatized/institutionalized children vs. Head Start children seen during the practicum.

It is necessary to complete certification and practice as a Theraplay practitioner for two years before pursuing Theraplay trainer/supervisor status.

PROCEDURES FOR OBTAINING CERTIFICATION

EVALUATING COMPETENCY

Below Average Ratings

We recognize that Theraplay requires special skills and aptitudes, and that it is not appropriate for everyone. Every effort will be made to identify problems early in the practicum before issuing a Foundational Theraplay Practitioner Certificate.

Supervisors are asked to evaluate and rate students' Theraplay skills at each milestone point, using a 1-5 scale. An average score of 3 is required for Foundational Certificate. If, after completing the sessions for Foundational Certificate any competency area is rated below "3-Average and Acceptable", the supervisor is asked to discuss the below average area with the student and develop a plan to improve skills in that area. This plan should be submitted to The Institute, along with the supervisor's recommendation that the student receive the Foundational Certificate. This certificate is not automatically awarded to students whose average score is 3, but is contingent upon the supervisor's opinion that the student is making progress and has the capability to achieve greater skill levels through the practicum. The Practicum Manager may request additional information from the supervisor before issuing a certificate.

If the student disagrees with a supervisor's feedback at session 8, he/she may pay for and receive a second opinion from a Theraplay Institute staff supervisor. The student should submit one representative session from those already supervised by the regular supervisor. If The Theraplay Institute supervisor believes that the student's work has earned the Foundational Certificate, a meeting or conference call will be scheduled with both supervisors and the student to work out the differences. The student may ask for a change of supervisor if no agreement can be made.

If the student fails to achieve an average score of 3 at session 8, he/she may ask for a remedial plan to get additional supervision and submit for the certificate at a later time. This plan should consist of no more than three additional sessions. If the student fails to achieve a passing score the second time he/she will not be able to advance in the practicum.

Problems may occur between Foundational Certificate and the mid-term evaluation. For example, the student may struggle with a different type of client or may not have made the expected progress to achieve the next level of certification. In this case, the procedure outlined above will be followed. The student may choose to follow a remedial plan and delay submission of the mid-term or submit the mid-term as a "second opinion". If The Theraplay Institute supervisor agrees with the negative evaluation of the regular supervisor, the three parties will meet to determine if a remedial plan is realistic or if the student should be counseled out of the practicum. If The Theraplay Institute supervisor disagrees and believes that the student scores at least a "3" in all categories, a meeting or conference call will be scheduled with both supervisors and the student to work out the differences. The student may ask for a change of supervisor if no agreement can be made.

Not Passing a Midterm or Final

Should a supervisor not pass a student on their midterm or final exam, the supervisor is asked to discuss the below average areas with the student and develop a plan to improve skills in that area. The student may choose to follow the remedial plan and delay submission of the mid-term/final or submit the mid-term/final as a "second opinion". If the student chooses to follow the remedial plan, the midterm/final must be re-submitted to the same supervisor that previously evaluated the midterm (if available) for continuity purposes. If the student chooses to get a "second opinion" and The Theraplay Institute supervisor agrees with the negative evaluation of

PROCEDURES FOR OBTAINING CERTIFICATION

the regular supervisor, the three parties will meet to determine if a remedial plan is realistic or if the student should be counseled out of the practicum. If The Theraplay Institute supervisor disagrees and believes that the student scores at least a "3.5" in all categories for a midterm or a "4" in all categories for a final, a meeting or conference call will be scheduled with both supervisors and the student to work out the differences. The student may ask for a change of supervisor if no agreement can be made.

Should a student upon not pass their midterm or final submission want to change their regular assigned supervisor, they may request re-assignment to another supervisor. The new supervisor must be a Senior Theraplay Institute supervisor to support the student in their below average areas.

Anti-Discrimination Policy

Practicum decisions are based on merit, and not on race, color, citizenship status, national origin, ancestry, gender, sexual orientation, age, religion, creed, physical or mental disability, marital status, veteran status, political affiliation, or any other factor protected by law.

PRACTICUM DETAILS

Required number of Theraplay sessions and cases--96 sessions, a minimum of 7 cases

Each candidate must complete a minimum of ninety-six Theraplay sessions covering a minimum of seven cases. Two Foundational cases, at least 2 more cases at the Intermediate cases, and at least 3 for the final level of certification to equal at least seven cases.

Of the 96 sessions, at least 50 must be of Theraplay treatment with the child. The remaining sessions may be a combination of work with the child, the parent(s) or group Theraplay work. For any given session, either the work with the parent or work with the child, but not both, may be submitted for supervision. Up to eight of these remaining sessions may be group work.

The minimum time for completing the practicum is one year. Cases should be selected so that they represent as broad a range of clients as possible: a range of ages, presenting problems and family constellations should be represented.

Required number of sessions to be supervised = 24

The basic Theraplay practicum requires supervision of *24 sessions two of which are MIM analyses*. This includes the two registration sessions, one session designated as a mid-term and one as a final, which will be supervised by a Theraplay Institute supervisor other than the candidate's usual supervisor. The twenty-four supervisory sessions must be spread out over four of the seven required cases.

Theraplay Practitioners need experience working with both the child and with the parents only (these session can include parents only sessions, MIM feedback sessions and parent practice sessions/role play sessions). Candidates must arrange to video record and submit for supervision **two and no more than six sessions of their work with parents** as part of the required sessions.

Group Theraplay sessions may count for up to five of the sessions. Maximum of two group sessions can be applied toward certification at the Foundational level and three at the Intermediate level.

PROCEDURES FOR OBTAINING CERTIFICATION

Supervision Options

Distance Supervision is one way to receive supervision from Theraplay Canada. Instructions for electronically transferring your videos to Theraplay Canada can be provided by emailing admin@theraplaycanada.ca. Your work will be reviewed and you will be sent electronic feedback pertaining to the video reviewed. You can also request an online meeting with this supervisor if you prefer face to face feedback. In the rare instance when on-line supervision is not practical, Theraplay Canada will accept DVDs or drives, which will be destroyed upon completion of supervision. If you would prefer to have your videos returned, you will be responsible for paying postage.

On-Line Group Supervision

On-line group supervision is available through our HIPAA compliant video conferencing software. If you present a case for on-line supervision, you can receive discounts on supervision fees. You are encouraged to participate as an observer as well to broaden your exposure to Theraplay cases.

Live Supervision

Students may arrange a face to face meeting with an assigned Theraplay Canada Supervisor for live supervision. You may arrange this by sending a request to admin@theraplaycanada.ca.

ADDITIONAL GUIDELINES

Submitting Sessions

Sessions must be of current clients and most recent work with them. It is expected that students will apply feedback to the next session (or if that is not possible the next one possible after feedback given) in order to demonstrate progress to their supervisor. For clients being submitted for the first time, include background notes and the MIM for your supervisor to review. Be sure to identify MIM analysis sessions that you are submitting *for credit*, or your supervisor may assume you are submitting background material. Include the *Session Supervision Form*.

It is best to arrange regular supervision reviews with your supervisor. This allows you to know when to expect feedback and will not surprise your supervisor at a time when he/she is not available to give you immediate feedback. Your supervisor may agree to have you verbally provide the background information and session notes rather than submit written documents. Please address this issue with your supervisor before the scheduled supervision.

The supervisor will spend one-hour consulting on each session sent. You may ask the supervisor to focus on a particular part of the session, in which case you should indicate the start time on the video for that point before sending.

If you are sending DVD's our goal is to provide feedback within two weeks of receipt in our office. However, candidates should not expect to receive feedback prior to seeing the child again. If immediate feedback is needed, please alert your supervisor and make other arrangements for consultation.

Your supervisor will not necessarily be aware of significant issues occurring outside of the sessions. Please bring relevant issues to your supervisor's attention by describing them in notes accompanying the session or by discussing them before starting on line supervision.

PROCEDURES FOR OBTAINING CERTIFICATION

It is possible that the student will need to take breaks from regular supervision due to illness or other life events. Breaks of more than six months might require lengthening the practicum. Students should discuss with their supervisor.

Record Keeping

Theraplay Canada will award credit for supervised sessions upon receipt of payment. It is the responsibility of the student and supervisor to keep detailed records about type and number of sessions submitted and to plan for completion of the correct numbers and types of sessions. Records should include: client's initials or first name, date of session, date supervised, payment made. The practicum manager will check our records against yours at each level of certification.

The supervisee must keep a record of all unsupervised sessions that she conducts as evidence of completion of the overall session requirement of 96 sessions with at least 7 families. The record should include initials of the families and dates of sessions.

Payment

Payments should be made at the beginning of each level of certification (i.e. Foundational, Intermediate, Full certification levels) unless other arrangements have been made. Payment can be made on-line by e-transfer, by calling in your credit card or by cheque in CAD dollars made out to Theraplay Canada. Candidates may arrange to start a supervision escrow account by paying all or part of the practicum fees in advance. Supervision fees will be deducted from this account and statements issued to the candidate on a regular basis.

Refund Policy

Supervision fees paid for student's current level in the practicum **are considered non-refundable** upon beginning supervision.

Inactive Forfeiture of Prepaid Funds

If a student is not active in the practicum for a period of 3 years and has pre-paid funds on hold in their account, Theraplay Canada will attempt to contact the individual three times (initially by email and followed by a letter) to determine how the student would like their funds to be handled. If Theraplay Canada does not receive a response after the third attempt to contact the student after 30 days, the funds on hold will be forfeited and transferred to our scholarship fund to support another student who is interested in certification but requires financial support. This means that the student will lose those funds. The three-year period is calculated from the date of last session or transactional activity. It is the students responsibility to monitor the status of their financial account.

Inactive Refunds of Prepaid Funds

If after being contacted the student determines they would like their funds refunded, they will be subject to a \$200 CAD processing fee to close their account, change their status to inactive and refund the fees.

Change of Supervisors

Mutually Agreed Upon Switch: If for any reason it is no longer convenient or desirable for the supervisory relationship to continue, the student may request assignment of a different supervisor.

PROCEDURES FOR OBTAINING CERTIFICATION

Dissatisfaction with Supervisor: If the student is dissatisfied with the performance of the supervisor, a complaint detailing the reason for the dissatisfaction should be written and filed to Theraplay Canada Executive Director. Theraplay Canada and The Theraplay Institute's training committee will arbitrate the complaint and recommend a course of action.

Multiple Theraplay Supervisors: The student may receive supervision from more than one supervisor through live group supervision, participation in on-line supervision, etc. However, it is important that the majority of the practicum is supervised by one supervisor so that progress can be properly assessed. The student should notify his/her regular supervisor when participating in other forms of supervision.

USE OF THE THERAPLAY® SERVICE MARK

We encourage those who attend Theraplay training to use the Theraplay principles and techniques in their own setting.

- After attending Level One Theraplay and MIM, clinicians can describe their work as based on Theraplay principles or Theraplay informed practice, but cannot say that they are doing Theraplay or conducting Theraplay sessions.
- If in the supervision practicum, clinicians can say that they are working toward certification as a Theraplay Practitioner.
- Upon receiving a Foundational Certificate or Intermediate Certificate, candidates may refer to these credentials in addition to above.
- After completing the supervised practicum and all other requirements for Certification, clinicians can call themselves Certified Theraplay® Practitioners and refer to their practice as Theraplay®.

Once trainees become certified, they can use the Theraplay name in written statements about their practice. At all times, the Theraplay service mark should be used correctly. All printed announcements, brochures, e-mail, web site announcements etc. should always use the service mark ® and include the phrase "Theraplay® is a registered service mark of The Theraplay Institute, 1840 Oak Ave., Suite 320, Evanston, IL 60201, USA."

Stylistic guidelines for the use of the service mark include:

- Use the service mark in the phrase "Certified Theraplay® Practitioner"
- Use the service mark in the phrase "The Theraplay® Institute".
- Use the service mark in a longer document the first time you use the word "Theraplay®".
- Use the service mark if "Theraplay®" is in the name of your practice or workplace and you are certified.
- If you are not certified, use the service mark when describing what Theraplay is in any printed materials or on your web site. Include a link to our website if you have a web site.

PROCEDURES FOR OBTAINING CERTIFICATION

ONGOING CONTINUING EDUCATION REQUIREMENTS

Membership For Certified Theraplay Practitioners

Certified Theraplay® Practitioners must complete a continuing education requirement every three years, and maintain annual membership with The Theraplay Institute and are entitled to a free listing on our web directory. The following continuing education options are available:

- Attend a Master Class or the International Conference
- Submit a treatment session for supervision
- Present a treatment session during an on-line group supervision
- Write an article that is accepted and published in The Theraplay Institute newsletter
- Conduct a portion of a training being run by a Certified Theraplay® Trainer
- Publish an article about Theraplay in a professional journal
- Present a clinical case about Theraplay at a conference
- Participate in a Theraplay research project

Membership For Foundational and Intermediate Practitioners

Foundational and Intermediate Practitioners must maintain annual membership with The Theraplay Institute and are entitled to a free listing on our web directory.

Sabbaticals

Practitioners who are inactive for an extended period of time may obtain sabbatical status, and the continuing education requirement will be waived. However, membership with The Theraplay Institute will be required in order that the Practitioner be up-to-date on changes and developments in Theraplay research and practice. Additional training or supervision may be required to regain active status after a Sabbatical.

ON-GOING ADMINISTRATIVE RELATIONSHIP WITH THERAPLAY CANADA

It is important that all levels of credentialed students stay up-to-date regarding best practices. Best practice updates will be published in the summer edition of the The Theraplay Institute newsletter.

In order for your certificate to remain in good standing, all levels of credentialed students (Foundational, Intermediate and Certified) must

1. Pay annual Theraplay Canada [membership dues](#) before expiration
2. Read and agree to abide by the [Member declaration](#).
3. Maintain up-to-date contact information and documentation including:
 - a. Copy of clinical license or proof of “good standing” within your profession
 - b. Current workplace address and position
 - c. Proof of on-going supervision of your work, when required, including name of supervisor and frequency of meetings
 - d. Proof of ongoing indemnity coverage
4. Certified Practitioners: Satisfy the continuing education requirement every three years mandated by The Theraplay Institute

PROCEDURES FOR OBTAINING CERTIFICATION

A practitioner who fails to satisfy the above requirements will become a lapsed member and:

- Must immediately cease to claim or use their Theraplay certification credential.
- Loses membership benefits, including discounts and online directory listing.
- Must reinstate membership within a two-year window from his or her membership lapse date without being required to pay \$75 reinstatement fee. After two years, to be reinstated, a member must appeal and be approved by The Theraplay Institute. Upon approval, member will be required to pay \$75 reinstatement fee in addition to the annual fee.

PROCEDURES FOR OBTAINING CERTIFICATION

PRACTICUM FEES

***Fees are paid prior to beginning each level of certification*

Although fees may be subject to change, once you are in the practicum level, your current level fees will be honoured. Next level may be subject to change prior to your admittance to that level.

Basic Practicum through Full Certification:

Foundational	
Registration fee and 8 supervised sessions. 8 th session must include a video sent into TC and TTI will review for passing of this level	\$1550 CAD <i>(Upon beginning the practicum level, all fees are non-refundable)</i>
Intermediate	
7 supervision sessions plus midterm video at 8 th session to be sent to TC and TTI will review. Completion of a live Intermediate Level 2 Workshop (cost not included here)	\$1550 CAD
Full Certification	
7 supervision sessions and final video at 8 th session to be sent to TC for TTI to review.	\$1550 CAD
TOTAL	\$4650 CAD

With an **Independent Certified Theraplay Supervisor:**

Foundational	
Registration fee paid directly to TC <i>(Upon beginning the practicum level, all fees are non-refundable)</i>	\$600 CAD
Intermediate	
Midterm and administrative fee	\$600 CAD
Full Certification	
Final and administrative fees	\$600 CAD
TOTAL *NOTE: Certification cannot be granted until fees have been paid.	\$1800 CAD <i>Plus supervisors per session fees (varies by supervisor)</i>
